## ABOUT ME

I am an enthusiastic and dedicated software engineering intern specializing in .NET and Angular development. With a strong foundation in programming and a passion for learning, I strive to build efficient, scalable, and user-friendly applications. Eager to contribute to innovative projects while gaining hands-on experience and expanding my technical expertise.

## PROJECTS

### LearnLoop

LearnLoop is an IT institute management system designed to streamline operations and enhance the learning experience. Admins can manage courses, schedules, fees, assignments, and student registrations, while students can enroll in courses, access materials, and submit assignments. The platform ensures efficient administration and provides a structured, user-friendly learning environment.

**Technologies:** Angular JS, .Net, Bootstrap, SMTP, Cloudinary

### Task Manager

A multi-user task management application designed to simplify daily task organization. The platform allows users to create and manage tasks, with each task supporting multiple detailed to-do items. Developed with a focus on user-friendly design and functionality.

**Technologies:** Angular JS, .Net, Bootstrap

## SKILLS & PROFICIENCIES

- .Net
- Angular JS
- JavaScript
- Bootstrap CSS
- SQL
- GitHub
- Canva
- Figma
- Communication
- Teamwork and Collaboration
- Problem Solving
- Team Leadership
- Creativity
- Critical Thinking
